

Universal™ Hopper

Money Controls

Universal™ Hopper

Description

CPI's Universal™ Hopper is one the world's most popular hoppers. It is universal in that it supports all the worlds coins (even the troublesome ones) with minimal adjustments so inventory is kept to a minimum.

The Universal Hopper is a large capacity coin hopper with elevated security and protection against fraud. It has a good reputation for reliability, low maintenance requirements and low overall cost of ownership

Benefits

Universal design minimizes complexity and inventory costs

Supports most global coins without hardware adjustment

Jam Resistance maximizes uptime

continuous agitation of the coins and an auto-reverse function

Increased machine efficiency

Intuitive level sensing

Low cost of Ownership

Long working life with low maintenance requirements

Maximum Uptime with High Coin Capacity

Universal Hopper can hold 1,200 €1 coins, minimizing the need for user intervention

Specifications

Dimensions (H x W x D in mm)

288mm x 129mm x 242mm

Coin Processing

Coin Capacity

1200 x €1 coins

950 x £1 coins

1500 x US 25¢ coins

Cascading Functionality

Not available

Coin Payout

3 coins per second

Interfaces Supported

Parallel, ccTalk serial (RS232-based)

Operating Temperature

0°C to 60°C

Operating Voltage (V)

24 V
